

My name is Adriana Spicer, and I am the Vice President of the Louisiana Foreign Language Teacher Association (LFLTA) in the State of Louisiana and we would like to extend an invitation for our upcoming conference on January 14<sup>th</sup> and 15<sup>th</sup> in Baton Rouge. Our conference has the purpose of providing Professional development to World Language teachers across the State. These past two years have been filled with challenges in Education and with long hours preparing for virtual or hybrid classes. Teachers have invested many hours in planning and creating Virtual classrooms so they can ensure the quality of education for students. However, teachers haven't had the opportunity in the past two years, to attend conferences or trainings that are tailored to their particular needs. LFLTA is offering this opportunity for teachers to attend our conference in January. This is also an excellent opportunity for World Language teachers in your area to share their wealth of knowledge with other peers and to spotlight the very best of our World Language teachers during our Conference.

We would like to extend the invitation to you as a principal and supervisor to provide the necessary funds for World Language Teachers to be able attend the upcoming conference that will take place **January 14-15, 2022 at the Hilton Hotel Capital Center in Baton Rouge.**
